Keyboards and Mice
from Cherry

Trend Line
Power Wheel Mouse
wireless optical

Work free of wires and dirt with Cherry's optical wireless mouse. The optical sensor resolution is up to 800 dpi, allowing very precise mouse control.

Key benefits

– Free movement of the mouse without interfering cable
– Optical sensor for precise movement of the mouse pointer
– No ball – no sticking – no dirt – no cleaning
– Precise working through resolution of up to 800 dpi
– Effortless horizontal and vertical scrolling using the Power Wheel, without scrollbars
– Ergonomic design and soft-touch surface for pleasant operation
– Connection and disconnection of the receiver during operation with USB connector
– Adapter for PS/2 interface
– Includes software for individual configuration on your system

Note: optimum function is achieved on non-reflective surfaces.
